

Fire Risk Assessment Services

Under UK Fire Safety Legislation, all businesses must carry out a fire risk assessment. At first point our risk assessor is qualified to carryout fire risk assessments and has over 20 years experience as an operational fire fighter.

Fire Extinguisher Supply, installation and Maintenance

At First Point Fire we service extinguishers to the bs5306 part 3 standard, to ensure that they operate correctly in the event of any emergency situation.

Fire Safety Training

We offer a range of practical and classroom based fire safety training courses including basic fire safety awareness, fire warden training and practical use of extinguishers, we also offer online fire safety training.

Fire Safety Signage

First Point Fire & Safety has a full range of fire safety signage available and can offer a survey to install service, to ensure swift and safe evacuation in the event of an emergency situation.

First Aid Training

First Point Fire & Safety have a full range of First Aid Courses please visit www.firstpointfire.co.uk for details.

Pat Testing

Using the highest specification dedicated PAT testing equipment, we are able to provide a thorough - efficient -high quality - low cost portable appliance testing service in accordance with the IEE IET Code of Practice for In-service Inspection and Testing of Electrical Equipment.

Wireless Fire Alarms

A more cost effective option than that of an hard wired alarm system. The Evacuator is a cable and wire free operation which also has a test facility, the same as that of an hard wired system. Smoke detectors can be added, 40 Call Points per zone. Unlimited number of sounder strobe units (subject to system design criteria) 16 secure zones. Ideal for listed buildings short term and long term temporary structures.
